

**League of Women Voters of Washington County
Proposed Program of Action
2021-22**

• **Redistricting**

- As Arkansas uses Census population results to redraw political boundaries, the League will work to promote a process to create fair maps that are drawn without political motivations.
- We will continue to work toward a more fair, independent redistricting process in the future.

• **Voting Rights**

The League will support efforts to ensure election access, defending against proposals that would limit access to voting locations or put unnecessary restrictions on absentee and mail-in voting.

• **Voter Registration**

- The League will continue to hold voter registration events and to promote the importance of registration.
- We will support efforts to shed light on unnecessary purging of voter registration rolls.

• **Protecting the Initiative Process**

- The League will oppose and call public attention to the legislative proposal to increase the threshold by which voter-initiated acts and constitutional amendments are approved.
- We will continue to advocate for robust protections of the petition signature-gathering process.

• **Ranked-Choice Voting**

The League will promote efforts to replace our state's election system with one that would allow voters to rank the top candidates they support, in order of preference.

• **Environmental Protection**

The League will continue its longstanding research and advocacy on environmental issues in Northwest Arkansas.

• **Issues Brought by Members**
